

Kentucky Department of Agriculture Hemp Licensing Program

2024 Processor/Handler List

The following companies are some of the current Kentucky licensed Processors/Handlers in the Kentucky Department of Agriculture's (KDA) Hemp Licensing Program. This is not a complete list of processor/handlers. The list includes only those license holders who elected to have their contact information publicized. Listings are in alphabetical order.

KDA does not recommend or endorse any of these companies. Some of these companies may still be in the planning phase, and none of them are obligated to accept any orders or new growers. Any contract or transaction is solely between license holders. KDA recommends that any license holder carefully read and fully understand the terms of an agreement with any processor before signing a contract.

A hemp license is required to possess hemp plants, viable seeds, leaf materials, or floral materials in Kentucky. KRS 260.858, Section(3) specifies, *"It is unlawful for a person who does not hold a license issued by the department, or who is not an agent of a licensee, to cultivate, handle, process, or market living hemp plants or viable seeds, leaf materials, or floral materials derived from hemp. Penalties for persons who cultivate, handle, process, or market living hemp plants or viable seeds, leaf materials, or floral materials derived from hemp without a license are the same as those penalties that are applicable to persons who violate KRS Chapter 218A, relating to marijuana ."*

Please visit www.kyagr.com/hemp for more information about how to apply for a hemp license.
